FROM THE DIRECTOR

Agriculture is confronted with production, marketing and management decisions that are all critical to the profitability of our industry. The purpose of the Montana Grain Traffic Statistics for 1993 is to provide statistical information that will aid in making informed decisions.

Reliable data and related information, as well as accurate analysis and timely execution on that analysis, are all paramount if we are going to be able to compete and take advantage of the market. Accurate statistics and information, allows Agriculture to realize the best return for our products. As Montana's number one industry, Agriculture must have access to every tool possible to strengthen our state's economy and the 1993 Montana Grain Traffic Statistics is one of those tools.

Sincerely,

Leo A. Giacometto
Director
